

The Next Generation is  
Coming...

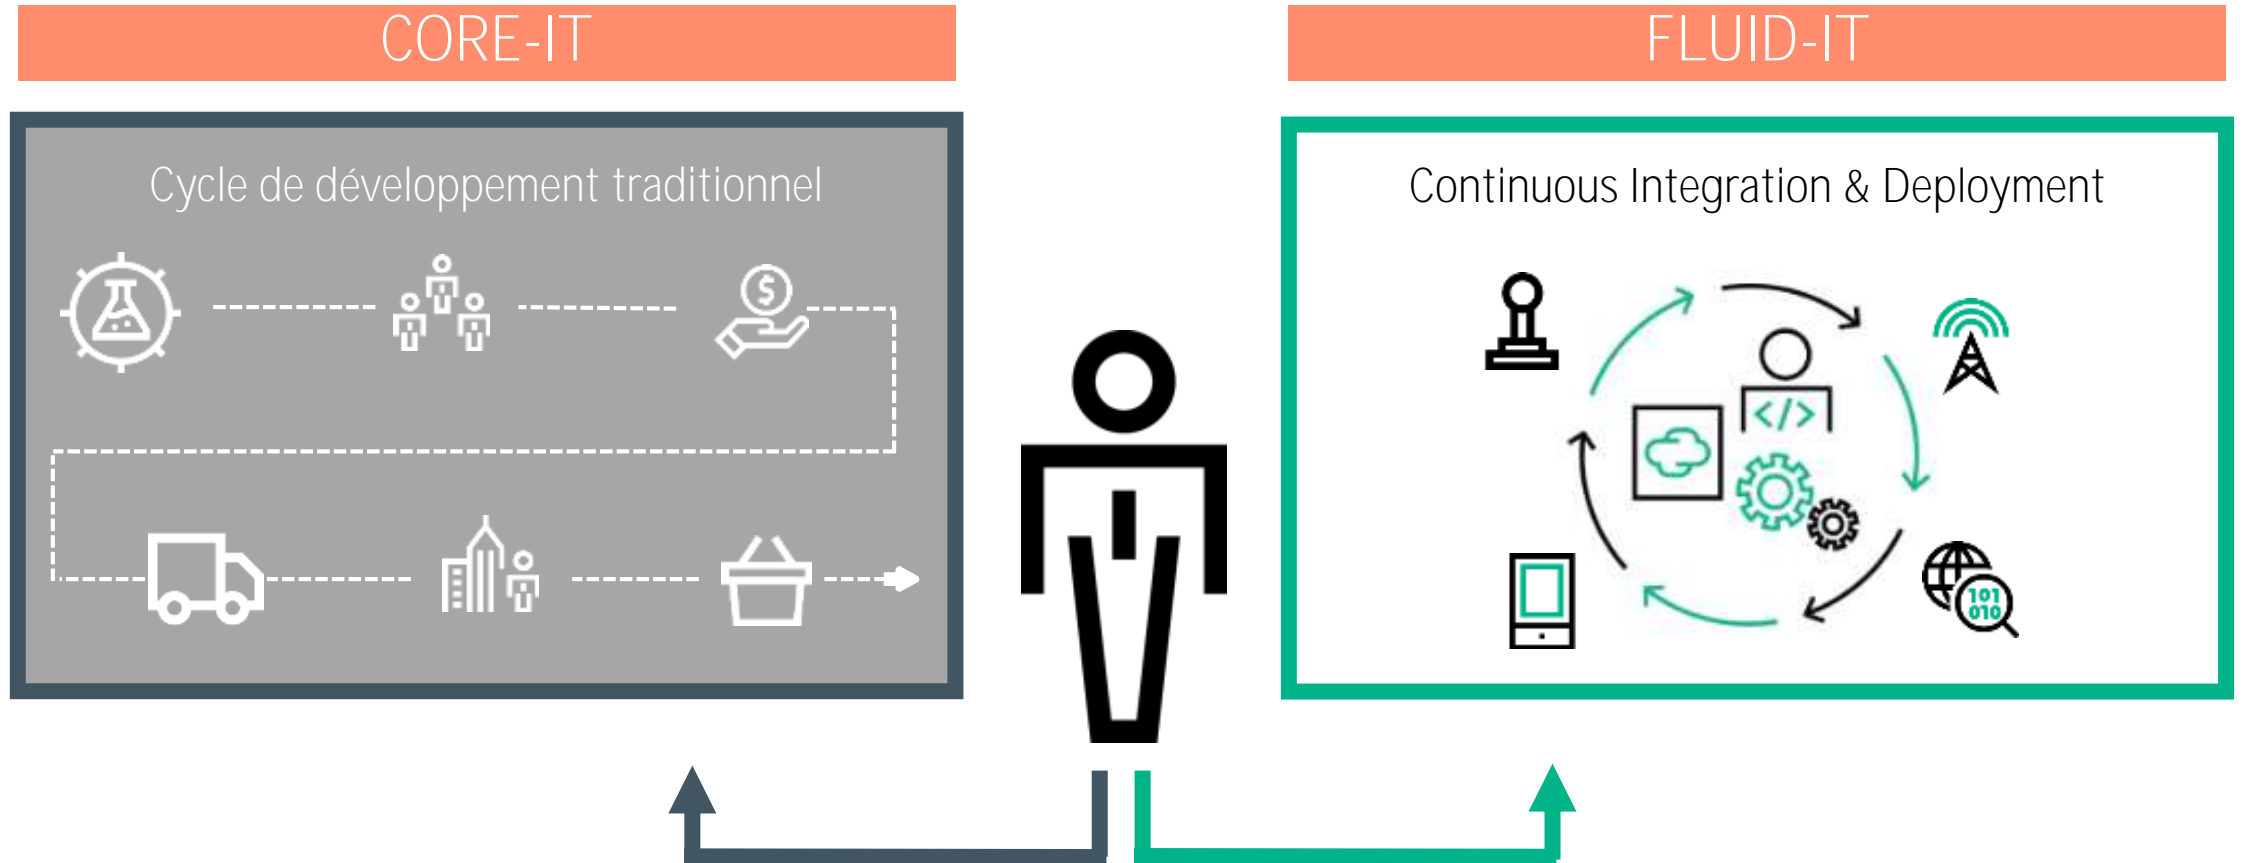

An aerial photograph of the London skyline at sunset. The sky is filled with large, golden clouds, and the sun is low on the horizon, casting a warm glow over the city. In the foreground, there are numerous older, multi-story buildings with traditional architecture. In the background, several modern skyscrapers stand out, including the Shard, the Gherkin, and the Walkie-Talkie. A semi-transparent dark grey horizontal band is overlaid across the middle of the image, containing the text "The Evolution of Application Delivery is here" in a white, sans-serif font.

The Evolution of  
Application Delivery is here

Generation

# Backlog

- Gestion des themes, features & user stories
- Gestion des tests automatisés indépendamment du robot utilisé (UFT, LeanFT, Selenium, Junit, ...)
- Approche BDD pour les tests manuels (Gherkin)
- Tableau de bord dynamique et contextuel
- Gestion des releases de produit
- REST API disponibles

# Backlog en action

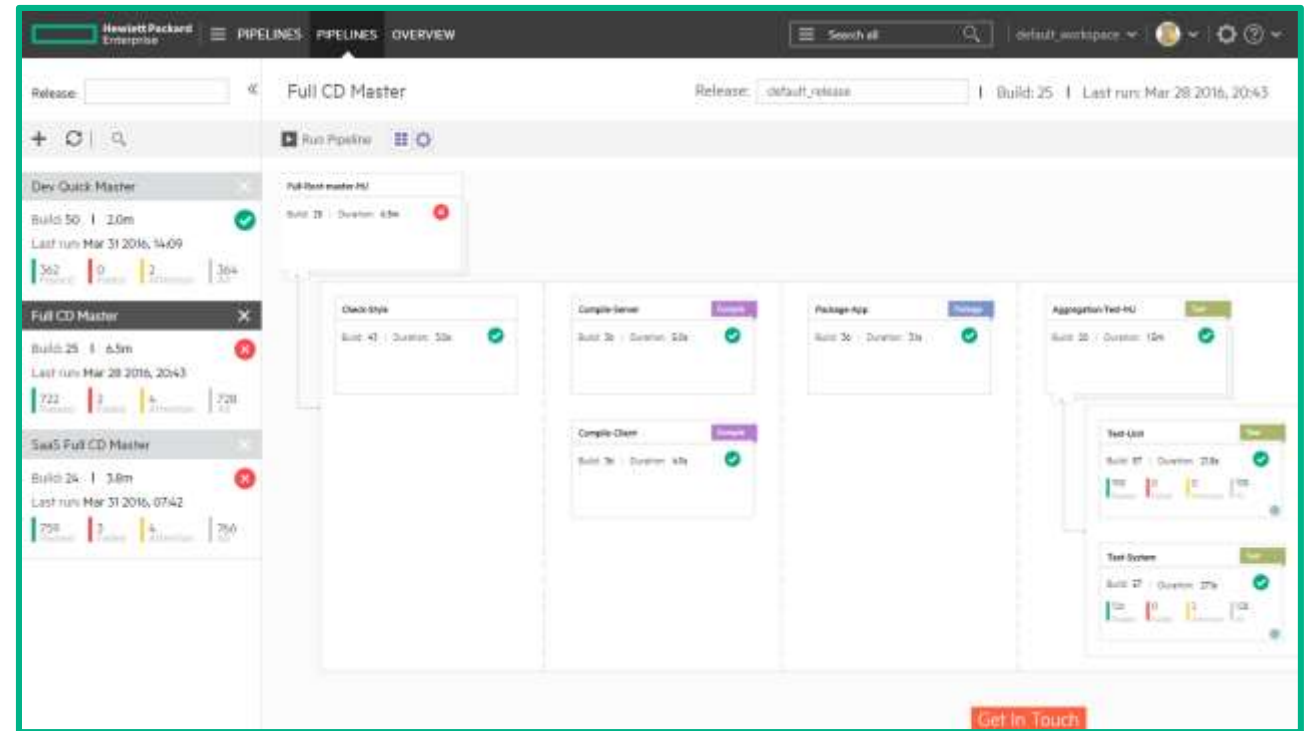

The screenshot displays the Backlog application interface. At the top, the header includes the Hewlett Packard Enterprise logo, a hamburger menu, the word 'BACKLOG', a search bar, and user profile information. Below the header, a breadcrumb trail reads 'Backlog / Contact Management / Manage Contacts' with a tooltip 'User can delete a contact'. The main content area shows a test case titled '1001 | Messaging E2E' with a 'Current phase: In Design' and a 'Move to Awaiting Review' button. A navigation bar below the title includes 'Details', 'Relations', 'Steps', 'Runs', and 'Attachments', with 'Attachments' being the active tab. The details section contains a 'Copy link' button and an 'Add tag' input. The test case metadata is displayed in a grid:

Test type:	Sanity	Testing tool type:		Estimated duration:	6
Designer:	Ollie French	Created:	05/05/2016 21:57:42	Last modified:	04/01/2016 12:29:48
Covered content:	User can ad...	Application module:	Messaging		

Below the metadata is a 'Description' field containing a paragraph of text in a non-English language, likely a placeholder or a specific test scenario description.

# Pipeline Management

- Consolidation et visualisation de la configuration du serveur de build Jenkins
- Drill down dans les différents jobs
- **Affichage du statut d'exécution des tests automatisés dans le build**
- Drill down des tests exécutés dans le menu Application Modules

# Pipeline en action

The screenshot displays the Hewlett Packard Enterprise Pipeline Overview interface. The top navigation bar includes the HP logo, 'PIPELINES', 'PIPELINES', and 'OVERVIEW' tabs, along with a search bar and user profile options. The main content area is divided into a left sidebar and a main panel.

**Left Sidebar (Pipeline List):**

- Dev Quick Master:** Build: 50 | 2.0m | Last run: Mar 31 2016, 14:09. Status: Success (green checkmark). Metrics: 362 Passed, 0 Failed, 2 Aborted, 364 All.
- Full CD Master:** Build: 25 | 6.5m | Last run: Mar 28 2016, 20:43. Status: Failure (red X). Metrics: 722 Passed, 2 Failed, 4 Aborted, 728 All.
- SaaS Full CD Master:** Build: 24 | 3.9m | Last run: Mar 31 2016, 07:42. Status: Failure (red X). Metrics: 759 Passed, 3 Failed, 4 Aborted, 766 All.

**Main Panel (Detailed View):**

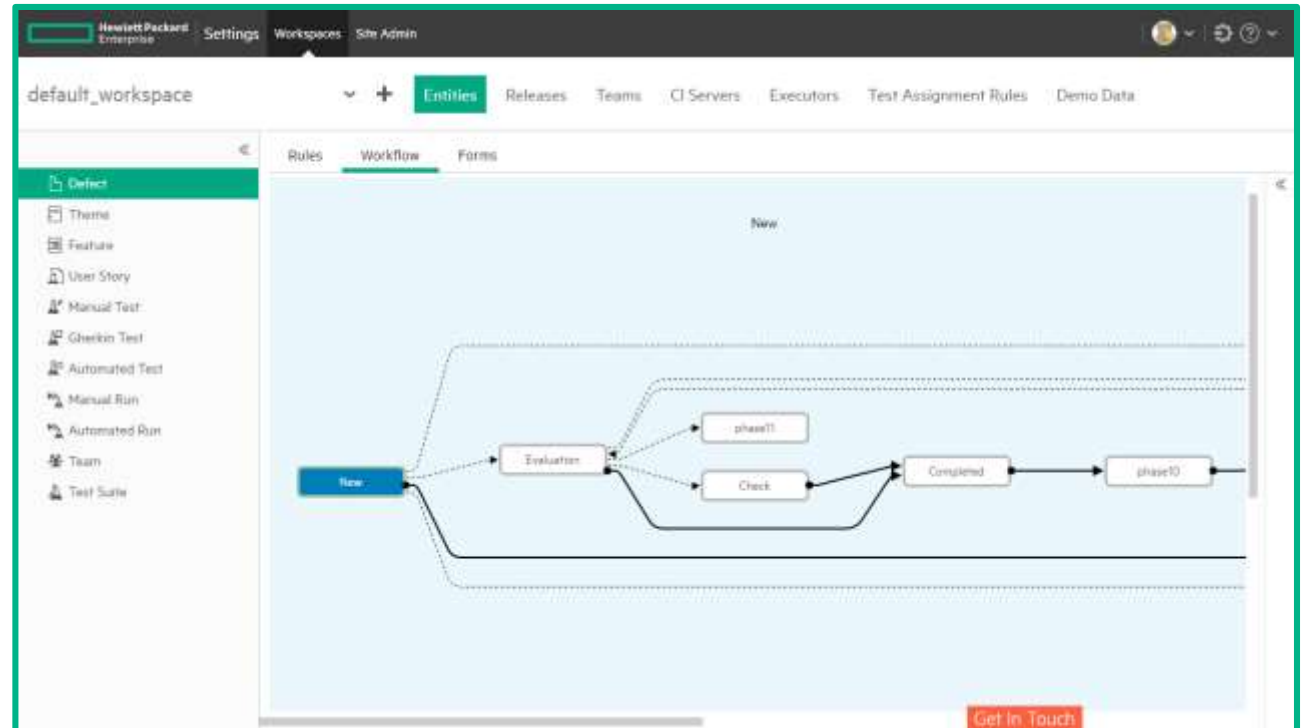

The main panel shows the 'Full CD Master' pipeline details. It includes a 'Run Pipeline' button and a 'Full-root-master-MU' build card. The build card displays: Build: 25 | Duration: 6.5m | Status: Failure (red X).

At the bottom right of the interface, there is a red button labeled 'Get In Touch'.

# Defect Management

- Filtrage efficace à l'aide des Tags et des attributs
- Workflow graphique et personnalisable
- Visualisation graphique des relations
- Affichage plein écran des pièces jointes
- Restitution des commentaires sous la forme d'un fil de discussion

# Defect en action

The screenshot displays the Hewlett Packard Enterprise Defects management interface. The main area shows a table of defects with columns for ID, Detected in release, Name, Severity, Owner, Release, Priority, and Detected by. The table lists 18 defects, with the first one (ID 1016) being 'Urgent' and 'Very High' priority. The interface also includes a search bar, filters, and a sidebar with sections for RELEASE, ENVIRONMENT, TAGS, Defects Attributes, DEFECT PHASE, and SEVERITY.
